

Shear Mixer Attachment with Geared Tilt

The Shear Mixer attachment has been designed to suit the lifting and tilting of a Shear Mixer to and from various mixing bowls and containers.

The Shear Mixer is secured to the Compac Lifting Machine where it can be safely lowered and raised. A tilt feature is also provided and is operated by a handwheel.

Together these features enable the operator to position and use the Shear Mixer with complete confidence and safety.

The lifting attachment has been designed to provide complete stability and is entirely suitable for the food industry and other hygienic applications.

The attachment is backed up by a full bespoke design service so ensuring that the right solution can be made to suit most reels.

All Packline attachments are fully interchangeable and can be easily fitted or removed from any model of Compac lifting machine that is fitted with the quick release system.
