

Forward Tipping Clamp Attachment Manual and Geared

Forward Tipping Clamp Attachment

Used for gripping loads by the diameter or circumference such as reels, drums, barrels etc and rotating via the hand wheel or handles to any forwards position through 360°deg.

For applications outside of the standard range the company provides a full bespoke design service offering solutions for most applications.

Packline's range of attachments are fully interchangeable and can be easily fixed or removed from any model of Compac fitted with the unique quick release system.

Overview:-

- Loads capacity up to 300kg - depending on lifter capacity
- Fitted with rubber rollers or pads to provide maximum grip and assist alignment
- Built in Slip Torque mechanism to ensure correct gripping pressure is applied preventing over tightening and damage to load
- Constructed mainly from anodized aluminium, stainless steel, brass and acetal
