

# Clamp Attachment

Used for gripping loads by the diameter or circumference such as reels, drums, barrels etc and rotating to any position through 360° deg.

For application outside of the standard range the company provides a full bespoke design service offering solutions for most applications.

Packline's range of attachments are fully interchangeable and can be easily fixed or removed from any model of Heavy Duty Lifter fitted with the unique quick release system.

Available as Manual or Geared Rotation

Loads capacity up to 300kg

Fitted with Rotating rubberised rollers jaws to provide maximum grip and assist alignment

Suitable for load diameters of up to 850mm as standard

Built in Slip Torque mechanism to ensure correct gripping pressure is applied preventing over tightening and damage to load

Constructed mainly from anodized aluminium, Stainless Steel and Brass and Acetal.
