

Omni 800

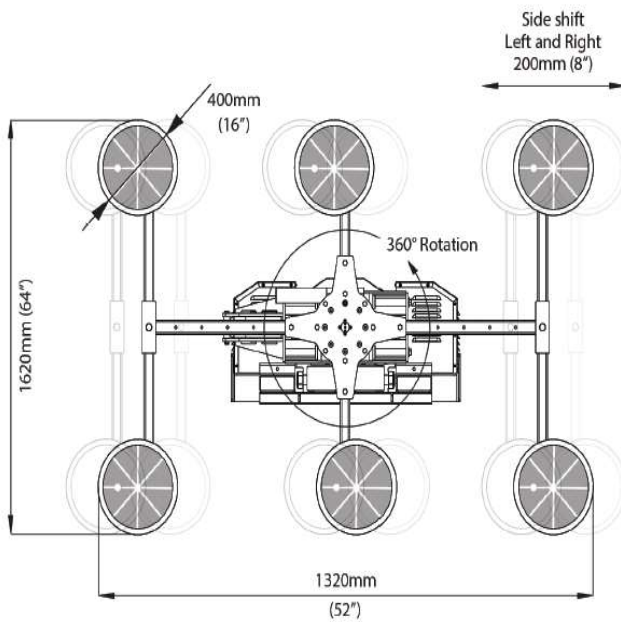

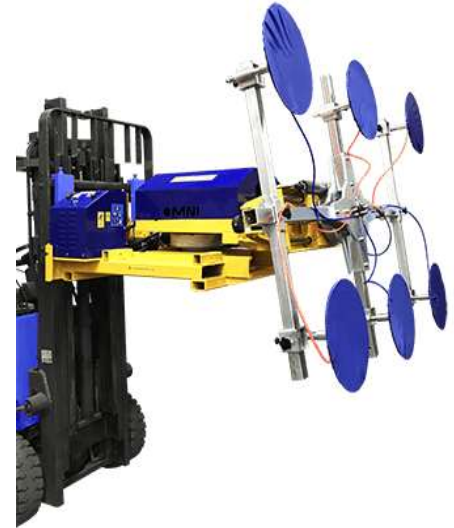

The OMNI 800 offers great flexibility, safety and ease of use. It has been designed specifically for use with a fork lift truck and some similar stacker trucks.

The standard lifting capacity of 800kg.

Fitted with six adjustable 400mm diameter vacuum cups. These are powered by a 24 volt, dual vacuum system for greater safety.

The Lifter is secured to the tyres of the forklift truck and has a full 360 degree rotation for precise positioning and control.
