

'Cargo-Lift' Mobile Vacuum Lifting

The Cargo-Lift from Packline Ltd is a powerful, mobile vacuum lifting solution designed for seamless use with pallet trucks, stackers and forklift trucks. It enables fast, safe loading and unloading while improving productivity and workplace safety.

KEY FEATURES:

- ✓ Compatible with pallet, stacker and forklift trucks
- ✓ Slide-on fork design for quick mounting and demounting
- ✓ Fully mobile solution – ready to use in seconds
- ✓ Lifts boxes, sacks, cartons and packaged goods with ease
- ✓ Electric height-adjustable arm for restricted spaces
- ✓ Compact, space-saving design
- ✓ Reduces manual handling and improves operator safety
- ✓ Can operate independently while freeing up lift trucks

PERFORMANCE & EFFICIENCY:

- Up to 80 kg lifting capacity
- Reach up to 3,000 mm with 180° rotation
- High-performance vacuum pump with easy maintenance
- Long battery life with optional interchangeable packs

Ideal for warehouses, logistics centres and manufacturing environments, the Cargo-Lift provides a flexible, cost-effective alternative to fixed vacuum lifting systems.
