

Drum Clamp Attachment - Manual Rotation

Reliable, Manual Control for Efficient Drum Handling

Designed for safe, hands-on operation, this attachment allows full 360° drum rotation—ideal for pouring, lifting, and repositioning tasks.

Secure Manual Clamping

A handwheel-operated clamp grips the drum securely, with a torque limiter for consistent, safe pressure.

Smooth Rotation with Optional Stops

Ergonomic handles enable easy manual rotation; optional stops at 90° or 180° offer repeatable positioning.

Interchangeable & Customisable

Fits any Compac Lifter with our quick release system and is available with bespoke options to suit specialised needs.

Durable & Hygienic

Suitable for food, pharma, chemical, and manufacturing industries.
