

# Drum Clamp Attachment - Fully Motorised

## Motorised Rotation for Safe, Precise Drum Handling

This fully motorised attachment securely grips drums of various types and sizes, enabling 360° rotation for accurate filling, emptying, or positioning.

## Powered Performance

Features powered lift, clamp, and rotation—reducing operator strain and improving control and safety.

## Versatile & Hygienic

Suitable for food, pharma, and chemical industries, and compatible with steel, plastic, or fibre drums.

## Quick-Change System

Easily fitted or removed from any Compac Lifter using Packline's quick release system for fast, flexible operation.
