

Drum Clamp Attachment - Fixed Vertical Lift

Safe, Vertical Lifting Without Rotation

Designed for straightforward lifting and lowering, this attachment handles a wide range of drum types where tipping isn't required.

Secure Clamping & Powered Lift

Drums are clamped by the outer diameter via manual, geared, or powered options. A torque limiter ensures safe, consistent grip. Powered vertical movement delivers smooth, controlled handling.

Quick-Change & Customisable

Compatible with all Compac Lifters via the quick release system. Bespoke solutions available for non-standard applications.

Durable & Hygienic

Ideal for cleanroom, food, pharma, and chemical industries—offering reliable, user-friendly operation.
