

# Keg and Barrel Lifter Attachment - Horizontal & Vertical Lift

## Safe, Hygienic, and Effortless Lifting for the Beverages Industry

The Packline Keg and Barrel Lifter is purpose-built for safe, efficient handling of kegs and barrels—whether upright or horizontal. Ideal for transferring loads from floor or pallet to storage racks, this attachment ensures smooth, controlled movement.

### KEY FEATURES:

- ✓ Electric Lift for effortless, powered operation
- ✓ Secure Retention System grips keg rims safely, even with central tap holes
- ✓ Push-Button Controls and remote control for precise, safe lifting
- ✓ High-Grade Stainless Steel for hygienic, durable performance
- ✓ Custom Design Service to suit any keg or barrel size
- ✓ Quick-Change System allows fast attachment swaps on Compac lifters
