

Cradle Attachment

Safe and Versatile Roll Handling

Designed to lift and transport reels via mandrels through the core, the Cradle Attachment ensures secure, efficient handling.

Hygienic & Durable

Constructed from stainless steel and aluminium, it's ideal for clean room and hygienic environments.

Customisable Options

Available in a range of standard models or tailored to specific needs via our bespoke design service.

Quick-Change System

Easily interchangeable with other Packline attachments using our unique quick release system—enabling one lifter to handle multiple tasks.
