

Single Spindle Attachment - Simple & Hygienic Reel Handling

The Single Spindle Attachment is a practical solution for lifting and transporting reels via the core—ideal for straightforward handling tasks in hygienic environments.

Its stainless-steel construction makes it perfect for food, pharmaceutical, and cleanroom applications, while the low-maintenance design ensures reliable daily use.

Compatible with all Packline Compac lifters via the quick-release system for fast, flexible operation.

KEY FEATURES:

- ✓ Multi-directional rollers for effortless reel transfer
- ✓ On-boom rotation for fast, precise cutting and unwinding
- ✓ Safety stop-pin for secure reel handling
- ✓ Improves operator efficiency and reduces manual strain
- ✓ Perfect for fast-paced, space-conscious production lines
