

Vertical Spindle Attachment - Geared Rotation

The Geared Vertical Spindle Attachment offers a safe and efficient solution for lifting, rotating, and handling reels or film rolls. Featuring secure core gripping and assisted manual rotation through 90°, 180°, or 360°, it ensures precise control for a wide range of material handling tasks.

With a lifting capacity of up to 300kg, it's available in multiple sizes and configurations to suit diverse applications. A bespoke design service is also available for custom requirements.

Fully compatible with all Packline Compac lifters, this attachment uses a quick-release system for fast, flexible operation.
