

Vacuum Lifting Systems for Boxes & Cartons

Fast, Weightless Handling with Optional Integrated Weighing

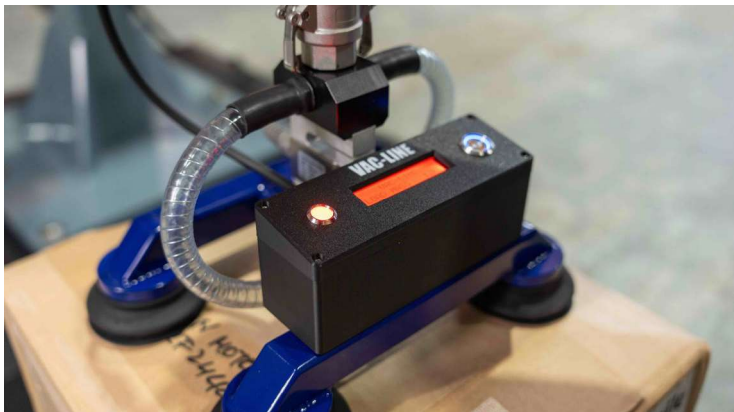

Packline's vacuum lifters for boxes and cartons offer a safe, ergonomic solution for handling loads in warehouse, logistics, and production environments. Ideal for transferring boxes from pallets to storage or between workstations, these lifters enable smooth, weightless movement of loads up to 100kg.

Designed for flexibility and ease of use, each system can be tailored to your specific application—adjusting lift capacity, reach, construction materials, and mounting style as needed.

KEY FEATURES:

- ✓ Effortless lifting of boxes and cartons up to 100kg
- ✓ Ideal for warehouses, logistics, and manufacturing
- ✓ Custom-built to meet operational requirements
- ✓ Smooth, precise handling reduces strain and improves work flow

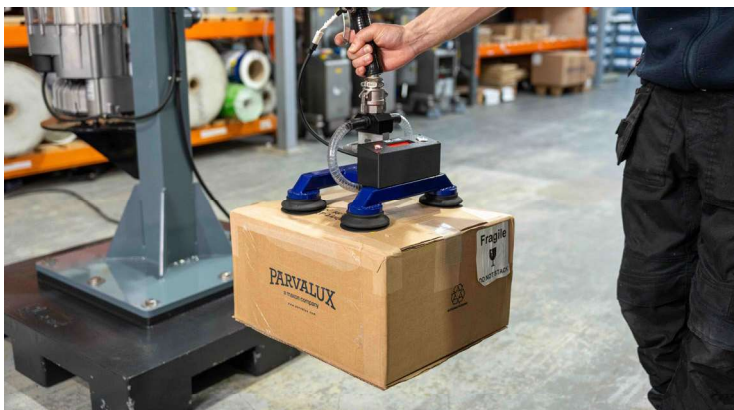

OPTIONAL:

Built-In Weigh Scale for Precision Handling

For applications requiring accurate weight control, the Vac-Line vacuum lifter is available with an integrated weigh scale:

- **Integrated Weighing** – Automatically measures each lifted box
- **Pre-Set Weight Function** – Ensures consistency in handling
- **Traffic Light Indicators** – Provides clear visual feedback for in-range weights
- **Optimised for Accuracy** – Perfect for batching, shipping, or quality control processes

Enhance efficiency and precision in your material handling with Packline's Vac-Line vacuum lifters—engineered for productivity, safety, and performance.
