

Brute Drum Handling

Safe, Hygienic, and Effortless Drum Handling

This clamp attachment is purpose-built for lifting and rotating Brute drums.

Engineered for cleanroom and high-care environments, this stainless-steel clamp attachment provides 180° rotation—eliminating manual handling and ensuring operator safety.

KEY FEATURES:

- ✓ Fully motorised / Geared / Manual clamping and rotation (up to 225kg)
- ✓ Custom handle grippers protect fragile Brute drums
- ✓ Proximity switch-controlled clamping prevents over-tightening
- ✓ Precision-engineered for food, pharma, and hygienic settings

BENEFITS:

- ✓ Safe, ergonomic operation
- ✓ Maintains drum integrity
- ✓ Boosts productivity with powered control

CUSTOMISABLE SOLUTIONS:

Tailored designs available to meet unique application needs
